ekino is a French company specialised in Conception, Design, Development and Maintenance of digital solutions: Digital Platforms, Websites, Mobile Applications.

We build innovative solutions from the ground up with open technologies. Our solutions are integrated with legacy systems (e-commerce, billing, provisioning, leads, CRM,...) and help business and digital managers to meet their objectives.

We provide our services to large French and international groups. Projects range from 50 to 1000 days of development.

Our team of 500 consultants and technical experts is located in France (Paris & Bordeaux), Vietnam (Ho-Chi-Minh City), United Kingdom (London), Singapore and USA (New York)

We are specialised in Digital Architecture, eCommerce, Web Platforms, HTML5, CSS, Javascript (ReactJS, AngularJS, NodeJS, Mobile and Responsive Apps, Agile Development, Java (AEM, MagnoliaCMS, Spring/Hibernate), PHP (Symfony2, Drupal, Magento 2), .Net (Sitefinity), User Experience, User Interface, Service Design, Cloud Services, DevOps.

ekino in Vietnam

Ekino Vietnam has been operating in Ho-Chi-Minh City since 2013, first in partnership with a Vietnamese company and since 2016 as an independent agency.

In 2015, ekino joined Havas / Vivendi Group which triggered an acceleration of our development. We work with other agencies in the network or directly with Asian and European clients.

With more than 150 employees, ekino Vietnam is one of the fastest growing agencies of Havas Group.
